fifteen

15 Businesses. 15 Stories.

Sometimes, we fall into the trap of comparing statistics when talking about our community. We focus on numbers – taxable value, land area – and they become our story... but what kind of story is that?

Powerful information is born from emotion – it brings you to a recognizable place. Shared experiences deliver a response that facts and figures simply cannot.

15 for 15 is a collection of stories that are more than numbers.
